

# CipherHealth Staff Well-Being Solutions

## Listen, Learn, and Act: Support Your Frontline Staff

These three important steps can make all the difference to an overwhelmed staff in need of support. Healthcare providers and extended teams are playing a critical role at this historic time, making significant sacrifices to care for others. We can help you manage their well-being by providing comprehensive tools to have purposeful conversations with team members, collect real-time data, and identify actionable ways to support them.

CipherHealth's Staff Well-Being solutions foster meaningful communications among care providers, support staff, and hospital leaders. We offer a streamlined way to connect with every team member so you can monitor and address well-being, identify safety and compliance concerns, provide motivation and recognition, and attract and retain the best talent. By implementing intuitive, data-driven staff rounding solutions, your frontline workers will be more engaged and have higher job satisfaction knowing that their concerns are being heard and acted upon.

## Power Purposeful Conversations and Drive Actionable Insights

CipherHealth's Staff Well-Being solutions facilitate:

### Monitoring Staff Satisfaction

Review well-being, screen for PTSD, and recognize individuals for the extraordinary efforts they make every day.

### Supporting New Staff Training

Manage new hire onboarding and complete routine check-ins on how they are adjusting.

### Evaluating Skills and Identify Growth Opportunities

Utilize assessments to identify specific education, competency, and well-being needs for clinicians and extended support staff.

### Conducting Regulatory and Environmental Safety Checks

Track compliance reviews, equipment audits, and disaster response planning.

## KEY BENEFITS

### Demonstrate Your Commitment to Clinicians

- Capture real-time data that allows for rapid intervention
- Improve engagement and job satisfaction, connecting staff to employee resources
- Recognize and encourage team members for their extraordinary work

### Quickly Operationalize Your Staff's Feedback

- Streamline workflows through automation
- Take action to improve processes through data-driven insights
- Increase productivity so clinicians can focus on patient care

### Drive Lasting Quality & Safety Enhancements

- Proactively manage quality and safety protocols to minimize adverse outcomes
- Operationalize compliance and safety checks among staff, patients, and the environment of care
- Deploy skills assessments to identify areas for additional training

### Staff Retention ROI

- Reduce costs due to turnover through a comprehensive staff retention program
- Recruit and retain the best talent in a competitive environment

**Listen, Learn, and Act:** CIPHERHealth's intuitive, data-driven engagement platform helps you actively monitor your staff and take quick action to support their needs, resulting in improved job satisfaction and better patient outcomes.

**Get started today.** Call CIPHERHealth now and speak to us about your Staff Well-Being goals.
